

THE JOURNAL OF THE SOCIETY OF AUTOMOTIVE ENGINEERS

INDEX TO VOLUME I, JULY-DECEMBER, 1917

Acceleration, testing engine.....	299	Automobile bumpers, suggested standard- ization for.....	220, 222	Cleveland Section activities.....	279
Accessories, testing passenger car.....	297	Automotive Needs of the Army.....	15	Clip-ends, dimension of.....	43, 46
Acquiring wings, William B. Stout (book rev.).....	400	Automotive Transport Committee, per- sonnel of.....	175	Coffin, Howard E. Problems of National Defense.....	99
Adams, E. T. Steam Engines in the Au- tomotive Field.....	318	AVIATION ENGINE DEVELOPMENT. E. H. SHERBONDY.....	194	Combustion bomb, experiments with.....	140
Addison, Dr. Christopher, British Work- shops and the War.....	266	Aviators, qualifications for.....	10, 313, 351	chamber design.....	301
Addresses at the Washington dinner.....	32	B		Conant, W. H. Notes on Automotive Battery Practice.....	159
Baker, Secretary Newton D.....	32	Bakelite, properties and use of.....	256	Condensers, ignition system.....	157
Crisp, Judge W. Benton.....	33	gears, forms of.....	257	Condensite, properties of.....	256
Deeds, Edward A.....	36	combustibility of.....	259	Conferences, military truck.....	87
Dunham, President George W.....	32	repairing of.....	258	Contact-maker, closed-circuit type.....	154
de la Grange, Captain Amaury.....	39	manufacture of.....	257	open-circuit type.....	155
Seddon, Wing Com., J. W.....	38	Baker, address of Secretary of War at Washington meeting.....	34	Controls, airplane, stick.....	41
Advisory Committee on Aeronautics, British.....	288	Balance weights, value of crankshaft.....	306	Council meetings.....	91, 221, 281, 338, 389
National.....	288	Balancing, crankshaft.....	302	Cooling systems, engine.....	297
Members.....	288	Ball and Roller Bearing Division, Report of.....	48	Cracking of gasoline.....	321
officers (ill.).....	289	Ball bearings, thrust, steering-knuckle.....	48	Crankshaft balancing, problems of.....	302
subcommittee members.....	290	Battery, starting, discussion of compart- ments for.....	57	Crankshafts, three bearing.....	313
Aerofoil wing tips, proper shaping of.....	7	effect of temperature on.....	161	four bearing.....	313
Aerofoils, horsepower-speed curves for different.....	7	life of.....	159	torsional deflection of.....	309
low-resistance, use of.....	7	operation, demands of.....	160	CRAVEN, F. H. DESIGN OF AN ENDURING TRACTOR.....	363
effect of sags in covering.....	8	specific gravity of acid.....	160	Crisp, Judge W. Benton, address of at Washington Meeting.....	33
Aeronautic Advisers of the Nation.....	288	Bearing lengths, crankshaft.....	312	Crystalline structure of steel.....	191
Division Meetings.....	89, 165, 218, 227, 271, 239, 380	lubrication difficulties.....	311	Current Standardization Work.....	219, 271, 329, 380
report of.....	41	Bearings, tractor connecting-rod, sizes of.....	121	Customs, effect of airplane on control of.....	211
Standards Meeting at Washington.....	227	Belts, fan, standardization of.....	73	Cylinders, effect of offset.....	201
attendance.....	229	Blackboard, use of, in testing.....	295, 296	D	
materials, plans for inspection.....	5	Boilers for passenger cars, advantages of.....	319	Data Sheet Division, Report of.....	50
safety belts, details of.....	333	Bolt and screw standardization.....	335	Deeds, address of Edward A., at Wash- ington Meeting.....	36
Aeronautics in the Future. Lieut. Col. books.....	362	Boils airplane, standardization of.....	43, 46, 90	Defense, National, Some Problems of.....	99
Meryn O'Gorman.....	206	Book Reviews 28 (July, adv. sect.).....	172	Howard E. Coffin.....	101, 175, 349
Aeroplane Design. F. S. Barnwell. (book rev.).....	226	aeronautic.....	226, 346, 400	council of.....	100
Air, density at high altitudes.....	203	Bonding materials.....	256	national, work of.....	100
resistance of.....	7	Boor, Captain A. BRITISH AIRCRAFT INSPECTION METHODS.....	316	Demands of Aircraft Standardization.....	230
Aircraft Inspection Department, British. situation, European.....	316	Bonus system, application of.....	253	Howard E. Coffin.....	230
Production Board, work of.....	177	British Advisory Committee for Aero- nautics.....	288	DEPPE, W. P. SOLVING THE GASOLINE PROBLEM.....	353
future of.....	209	BRITISH AIRCRAFT INSPECTION METHODS. CAPTAIN A. BOOR.....	316	DESIGN AND PRODUCTION OF AIRCRAFT IN TIME OF WAR. WING COM. J. W. SEDDON.....	6
Airplane bolts, suggested standardization of.....	90	British aircraft developments.....	268	OF AN ENDURING TRACTOR. F. H. CRAVEN.....	363
cable specifications.....	165, 218, 276	Workshops and the War. Dr. Christo- pher Addison.....	266	Design (see subject of design).....	
Caproni (ill.).....	338	Buffalo Section activities.....	214	Details of New War Trucks.....	292
controls, discussion of.....	44, 330	BUFFINGTON, H. C. GOVERNMENTAL TRACTOR SERVICE.....	117	Detroit Section activities.....	279
stick.....	41	Bulbs, head-lamp, standardization of.....	53	officers (ill.).....	280
engines (see engines, airplane).....	90	Bumpers, automobile, necessity for stand- ardization.....	220, 222	Distortion of machine parts during heat treatment.....	254
glue, tests for.....	274	Bumper-Fitting Standardization. L. P. Halladay.....	222	Distributors, ignition, types of.....	256
specifications.....	315	Bureau of Mines, work of.....	321	Dope, cellulose acetate, specifications.....	271, 329
Handley-Page, description of.....	274	Bureau of Standards, The National.....	132, 232	cellulose nitrate, specifications.....	272, 329
horsepower-weight ratios.....	6	BURKHARDT, OTTO M. PROBLEMS OF CRANKSHAFT DESIGN.....	302	testing of.....	271, 329
mail delivery.....	264	Burkhardt, Otto M. Valuation of Engine Performance.....	204	Dope Committee, report of.....	271, 329
nuts, specifications.....	219	BURNS, DICK. TRACTOR LIGHTING, START- ING AND IGNITION.....	373	Double-piston construction of internal combustion engine.....	141
pipe lines, marking of.....	42	C		Dry gas in engines, advantages of.....	301
production, progress of.....	6	Cable-ends, flexible, suggested standardi- zation of.....	41	Dunham, George W. address at Semi- Annual Meeting.....	3
propeller hub specifications.....	333	galvanized non-flexible.....	41	address at Washington dinner.....	32
propeller-shaft specifications.....	333	Camera, mapping, development of.....	290	Future of the Farm Tractor Industry.....	98
reconnaissance, qualities of.....	9	Carbon, effect on critical temperature of steel (ill.).....	147	Duntley, S. B. Organization of a Service Department.....	117
wings, resistance of.....	7	Carbureters, floats for, inadvisability of standardization.....	89	Durand, Dr. William F. (ill.).....	289
structure.....	7	jet, description of.....	179	Problems in Airplane Construction.....	351
round wire, standardization of.....	165, 276	application of heat to.....	180	E	
scout, engines for.....	8	kerosene.....	107, 108,	Electrical Equipment Division, Report of.....	50
range of horsepower for.....	8	oil (ill.).....	107	Electrode design, spark-plug.....	187
supporting surfaces.....	7	surface, description of.....	179	Engine Division, Report of.....	52
tachometer drive specifications.....	332	Carburization, methods of.....	250	Engineers, automotive, future of.....	183
uses.....	245	Casing-head gas, use of, in engines.....	300	Engines, internal combustion.....	
varnish specifications.....	276, 329	Casing-head gasoline.....	325	airplane, air-cooled, objections to.....	299
washers, bevel.....	334	(See gasoline, casing head.).....		compression used in.....	297
Wright (ill.).....	206	Census, traffic, value of.....	326	Austro-Daimler, specifications of.....	201
wheels, suggestions for.....	332	Centrifugal forces, engine.....	303	Benz, details of.....	197
Altitude effect on engine speed and power (ill.).....	203	CHAMPION, ALBERT. SPARK-PLUGS FOR HIGH-SPEED ENGINES.....	185	Clerget, when used.....	8
temperature variation (ill.).....	203	Chain Division, Report of.....	50	construction of.....	10
variation of air density with (ill.).....	203	silent, width of.....	50	cooling of.....	11, 297
Ambulance Engineering Work.....	350	Charts, document route, use of.....	79	cylinders, use of steel.....	11
Ambulances, general design of.....	31	Chasers (see submarine chasers).....		definition of.....	89
ANDERSON, R. M. LABORATORY TESTING IN THE AUTOMOTIVE INDUSTRY.....	295	Cheeks, crankshaft, design of.....	309	development of.....	194
Application of Traffic Census. D. B. Goodsell.....	326	CLARK, W. G. BURNING KEROSENE IN TRACTOR ENGINES.....	106	effect of altitude on.....	203
Applications for membership.....	92, 171, 224, 284, 344, 394	Clarkson, Coker F. Work of Henry Souther.....	128	French development.....	194
Applicants qualified.....	93, 225, 285, 345, 395	CLASSES AND USES OF BATTEPLANES. CAPT. AMAURY DE LA GRANGE.....	9	Gnome, horsepower of.....	317
Attendance at Fremont tractor meeting.....	126			Hispano-Suiza, horsepower of.....	8
semi-annual Washington meeting.....	61			ignition units for.....	66
Army, Automotive Needs of the.....	15			Junkers, design of.....	142
Artillery, motorization of field.....	244			magnetos on, use of.....	67
Aviation fields, sites for.....	290			Mercedes, detailed description of.....	195
AUTOMOBILE ENGINE COOLING. A. K. SCHANZE.....	69			production of.....	9
				Renault, detailed description.....	196
				Rolls-Royce, use of.....	8

*Society and Section meeting papers are
printed in capitals.

Engine, airplane, specifications of.....	205	de la Grange, address of Captain Amaury, at Washington Dinner.....	39	Magneto, high tension wiring.....	68
airplane, Sunbeam, description of.....	199	Guynemer, exploits of Aviator.....	10	position of.....	68
tests.....	273			Mail delivery by airplanes.....	264, 290
Final Tests of United States.....	177			Manifold design, kerosene engine.....	108, 111
weight specifications.....	275, 330			Manufacture of Artillery Ammunition.....	
automobile, cooling of.....	69			L. P. Alford and others (book rev.).....	172
fans (see fans).....				Marine Division, Report of.....	56, 277
Diesel, improved design of.....	22			Materials, aeronautic, plans for inspection of.....	5
gas temperatures.....	300			bonding properties of.....	256
Junkers, construction of.....	140			aeronautic inspection of.....	248
crankshaft, advantages of.....	145			selection of.....	247
cycle of.....	140			Mechanics, airplane, necessity for.....	10
double-piston construction.....	141			Meetings, winter, program for.....	347
advantages of.....	145			Membership list, publication of.....	161
efficiency of.....	145			applications for.....	92, 171, 224, 284, 344
height, comparison of.....	144			applicants qualified.....	93, 225, 285, 345
indicator card of.....	141			Merchant Shipbuilding, Effect of War on.....	255
1000-horsepower, details of.....	143				
output of.....	144				
comparison of.....	144				
valve gear.....	142				
work of, distribution of.....	145				
kerosene (see engines, truck, kerosene).....					
Liberty, purpose of.....	244				
(see engines, truck, U. S. Military).....					
marine, Junkers.....	141, 142, 143				
Performance, Valuation of.....	204				
semi-Diesel.....	145				
stationary, importance of.....	245				
Junkers.....	142				
testing (see testing, engine).....					
tractor, kerosene, fundamentals of.....	21				
kerosene, air cleaning in.....	113				
compression in.....	109				
design of.....	109				
performance of.....	112				
spark-plug location.....	111				
control, throttling.....	21				
ideal, description.....	23				
Junkers.....	142				
sizes of.....	142				
truck, military, specifications.....	88				
Junkers.....	142				
Engine, steam, advantages.....	318				
steam (see steam car).....					
vibration, elimination of.....	311				
Engineering in the War, Automotive.....					
George W. Dunham.....	243				
Equipment, testing of.....	295				
Errata for Volume I.....	396

reports for 296
spark-plug 298, 299
steel, methods of 249
use of blackboard in 295, 296
Textbook of the Materials of Engineering. Herbert F. Moore (book rev.) 346
Textbook of Naval Aeronautics. Henry Woodhouse (book rev.) 172
Thermosiphon systems 70
Thimbles for wire-ends, standardization 42, 45
THOMAS, W. O. LESSONS OF THE WAR IN TRUCK DESIGN 23
Tire and Rim Division, Report of 58
Tire, carrying capacities 58
Torque in twelve-cylinder engine 308
Traction coefficients for various pavements 327
TRACTOR VS. AUTOMOBILE SERVICE. S. C. TURKENKOPH 122
developments of the 245
TRACTOR ENGINE, FUNDAMENTALS OF A SUCCESSFUL KEROSENE-BURNING. C. E. SARGENT 21
FROM THE VIEWPOINT OF FARM MANAGEMENT, THE. ARNOLD P. YERKES. 102
LIGHTING, STARTING AND IGNITION. BURNS, DICK 373
Tractor Parts, Standardizing. George T. Strite 120
Service from Three Sides. Fred P. Steele 120
Service, Governmental. H. C. Buffington 117
TRACTOR SERVICE, PROBLEMS IN. DENT PAIRETT 115
Tractor Division Meetings 59, 278, 384
TRACTOR SPARK-PLUG REQUIREMENTS. C. A. KRAUSE 216
Tractor carburetor fittings 162, 220
connecting-rod dimensions 163, 220, 278
belt speeds 59
power 59
bolts, standardization 163
drawbar rating 59, 220
design 164, 220, 278
height 59, 164
engine, magneto dimensions 59, 163
fans, standardization of 163
fan belts, standardization of 163, 278
pulleys, standardization 163
fuel and lubrication pipe lines 220
horse equipment for, use of 104
magneto couplings 163, 220, 278
manufacturers, obligations of 124
nomenclature 163
nut standardization 163
operators, necessity for skilled 105, 124
piston rings 124
plowing speeds 59, 164
power belt, width of 163, 220, 278
rims, drive wheel, standardization 162, 220
service, discussion of 125
- Tractor, as a useful office 123
definition of 123
department 119
examples of 116
organization 117
problems of 104
spark-plug, dimensions for 163, 220
wheels, dimensions of 121
Tractors, advantages of farming by 19
effect of, on soil 117
inefficient handling of 102
in operation, (ill.) 106
for belt work 104
for hauling 105
number in operation, 1916 20
operation of 162
specification forms for 103
size of efficient 328
